

Financial Analyst

Gary

Class- 2nd hour

Due: May 9, 2023

Financial Analyst Regulations or E.A.R

For this type of job you'll need a bachelor's degree in a field of finance, you'll need no extra training other than what was stated above. You must be honest straightforward and willing to give hard truths. Your job includes advisery over all assets, investments, and every single financial decision. Meaning you gotta be top of your game and be great at keeping records and maintaining the current events of the economy

E.A.R Description

The top priority of your job is to keep your client well informed of the economy and evaluate risks of investments and opportunities of asset investments. If you don't know how the economy works you must figure it out, cause if you don't you'll be left in the dust and probably fired as well.
