

Computer Programmer

Annie

Math, 2nd Hour

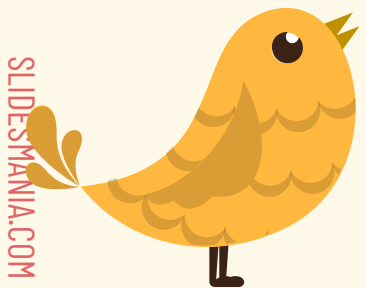

Due May 9th

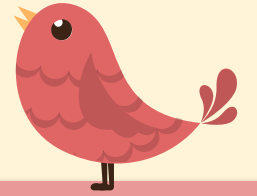

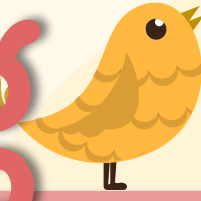

Computer Programming

- Computer Programmers write, test, and upload computer codes that allow the computer to function properly.
- Computer Programmers make between \$48 & \$76 thousand
- Because math is a foundational part of computers, then programmers use math with almost all of their programs

Computer Programming

Schooling

Most Computer Programmers have bachelor's degrees in some field of computer science or mathematics.

Salary

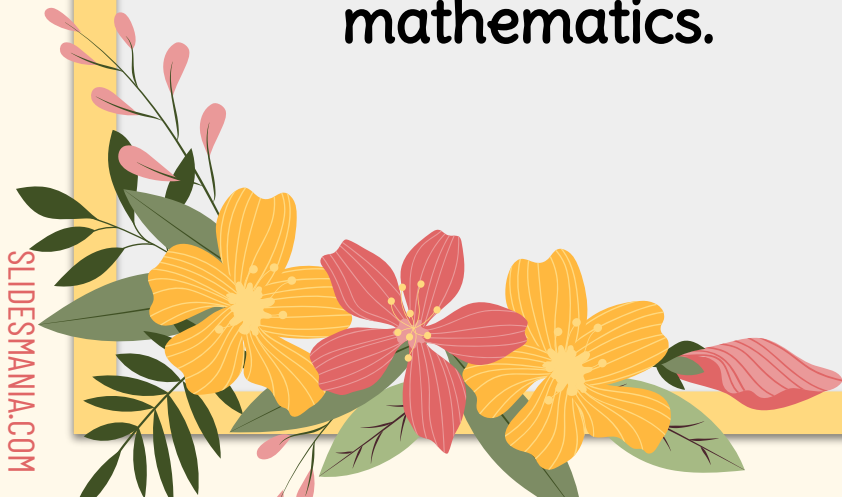

Most programmers average \$40 an hour

Job Duties

- Writing Code
- Installing Software
- Designing new systems
- Testing Code

Special Skills

A lot of computer programmers learn several programming languages

Abilities

Computer programmers should also be experts in mathematics, writing, and have good self motivation. A good computer programmers also needs to be really organized.

Programming

Some days I
will be
writing new
codes

Other days I
will install
new code on
existing
computers

Occasionally
I will test
codes and
fix codes
that have
problems

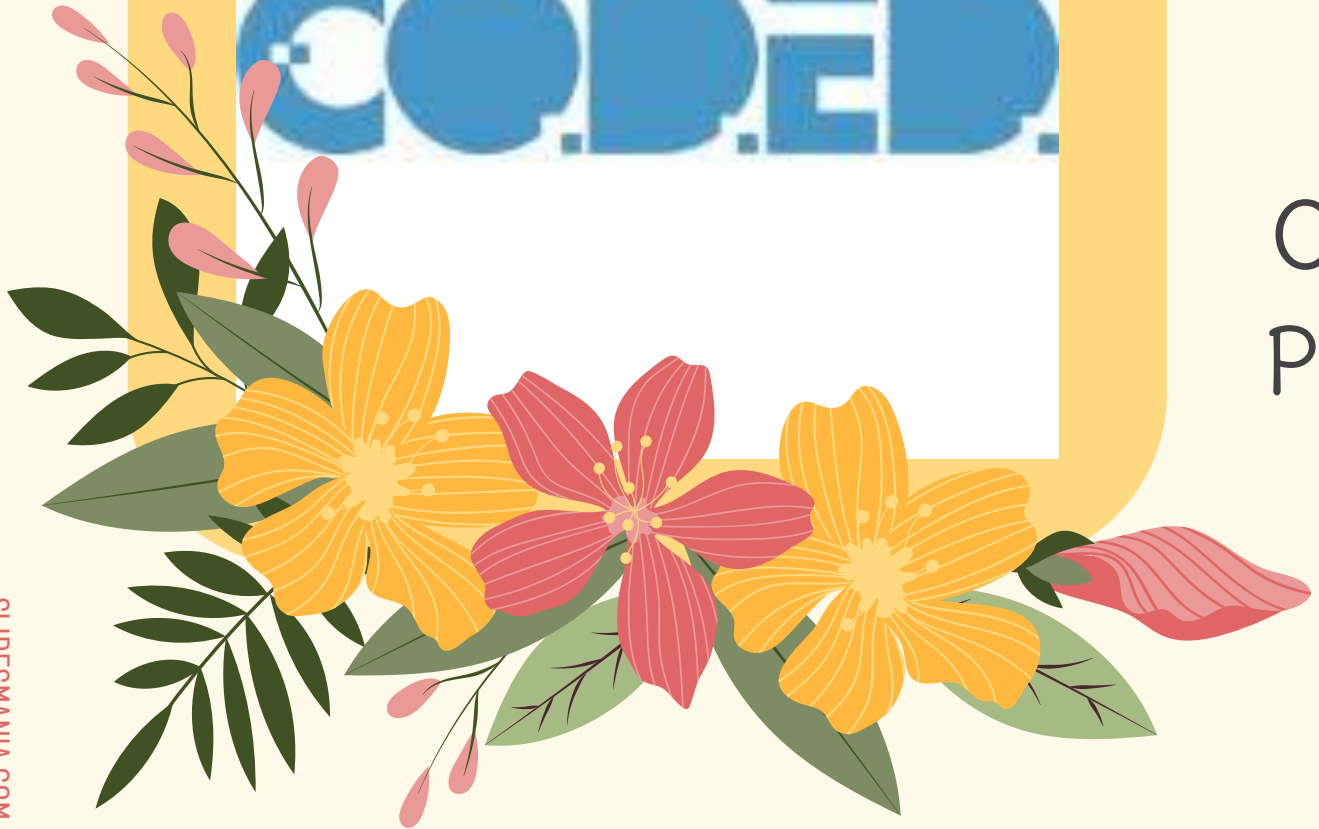

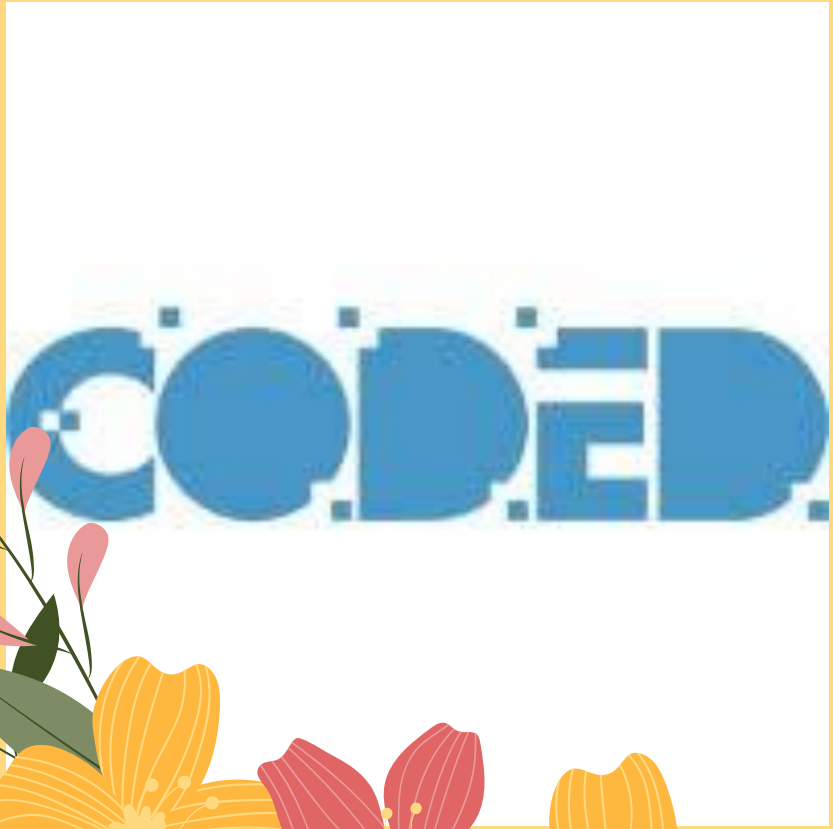

On special
occasions I will
also design
new websites
and
applications

Some
programmers
constantly
update
computers so
new software
can be added

Coded Inc.
